

## CHAPTER 2

### Streets and Sidewalks

- § 4-2-1 Removal of Rubbish and Dirt From Sidewalks
- § 4-2-2 Sidewalk Construction and Repair
- § 4-2-3 Excavations of Streets, Alleys, Public Ways and Grounds
- § 4-2-4 Regulations Governing Excavations and Openings
- § 4-2-5 Obstructions and Encroachments
- § 4-2-6 Street Privilege Permit
- § 4-2-7 Snow and Ice Removal
- § 4-2-8 Terrace Areas
- § 4-2-9 Vaults
- § 4-2-10 Downspouts and Eaves of Buildings Not to Drain on Sidewalks
- § 4-2-11 Sale or Display of Merchandise Prohibited
- § 4-2-12 Requests for Improvements

#### SEC. 4-2-1 REMOVAL OF RUBBISH AND DIRT FROM SIDEWALKS.

No owner or occupant shall allow the sidewalk abutting on his premises to be littered with rubbish or dirt. If such owner or occupant shall refuse or fail to remove any such rubbish or dirt when notified to do so by the Village Board, the Board may cause the same to be done and report the cost thereof to the Village Administrator who shall spread the cost on the tax roll as a special tax against the premises, or such cost may be recovered in an action against the owner or occupant.

#### SEC. 4-2-2 SIDEWALK CONSTRUCTION AND REPAIR.

- (a) CONSTRUCT. It shall be the duty of the Village to construct public sidewalks along or upon any existing public street in the Village of Prairie du Sac and to pay the entire cost of construction thereof. Public sidewalks shall be located only along such streets as designated by the Village Board. The Village Board may, at its discretion, substitute multiuse paths for public sidewalks along or upon existing public streets or other areas where significant off-street bicycling activity is anticipated. Carriage walks or similar type sidewalks shall not be considered a public sidewalk.
- (b) MAINTAIN. It shall be the duty of the Village to repair and perpetually maintain, and as necessary repair and replace, public sidewalks along or upon any public street in the Village of Prairie du Sac. It shall be the responsibility of the abutting property owner to keep each such public sidewalk free from ice and snow, see Sec. 4-2-7, except where the Village Board has approved otherwise. Any person or other entity found to have damaged, removed or altered any public sidewalk without the permission of the Village Board shall be subject to the cost of reversing such damage, removal or alteration. For purposes of this subsection (b), the words “multiuse path” shall be synonymous with the words “public sidewalk.”
- (c) PERMIT REQUIRED. No person shall hereafter lay, remove, replace, or repair any public sidewalk within the Village unless the person is under contract with the Village to do such work or has obtained a permit therefor from the Director of Public Works at least seven (7) days before work is proposed to be undertaken. No fee shall be charged for such permits. For purposes of this subsection (c), the words “multiuse path” shall be synonymous with the words “public sidewalk.”
- (d) SPECIFICATIONS. All public sidewalks hereafter shall be repaired, rebuilt and constructed in accordance with the following specifications, except where the Director of Public Works considers one or more of the specifications impractical for a repair or rebuild:

- (1) Subgrade. The subgrade shall be prepared by excavating to the line, grade and cross section as established by the Director of Public Works. Soft and unsuitable material shall be removed and replaced with crushed stone or other satisfactory material, and the subgrade shall be thoroughly and uniformly compacted and moistened immediately before the concrete is placed. When so specified by the Director of Public Works, a sub-base of crushed stone, gravel or other approved porous material shall be placed under the sidewalk. On embankments the subgrade shall extend at least one (1) foot beyond each edge of the sidewalk.
- (2) Material. All concrete for sidewalk shall conform to the requirements of Section 501 of the Wisconsin Department of Transportation Standard Specifications, latest addition, and shall be Grade A or A-FA.
- (3) Forms. When using forms, concrete shall be placed in straight forms of wood or metal of sufficient strength to resist springing, tipping or other displacement during the process of depositing and consolidating the concrete. Wood forms shall be surfaced plank of at least two (2) inches thickness except for sharply curved sections. Metal forms shall be of approved section. The forms shall be of full depth of the required walk and shall be of such design as to permit secure fastening. Forms shall be thoroughly cleaned and oiled before the concrete is placed against them. Concrete shall be placed in the forms on a moist subgrade, deposited just above the finished grade and consolidated and spaded sufficiently to bring the mortar to the surface and to prevent honeycombing. The concrete shall then be struck off level with the top of the forms and finished with wooden flats.
- (4) Slope and Edge. To provide adequate drainage, the sidewalk shall slope toward the curb at a rate of 1.5 percent, plus or minus 0.5 percent across the width of sidewalk. All joints and edges shall be finished with an one-fourth (1/4) inch radius edging tool. Sidewalks shall be constructed within the limits of the street right-of-way, and unless otherwise specifically indicated, there shall be at least six inches of strip of street right-of-way left between the abutting property line and the nearest edge of the sidewalk.
- (5) Width and Thickness. Public sidewalks serving single and two family residential, recreational, and open space uses shall be at least four (4) feet in width and not less than four (4) inches thick except within driveway approaches where the minimum thickness shall be six (6) inches; provided that such sidewalks may be repaired or replaced to a width not less than their pre-existing width. Sidewalks serving all other land uses shall be not less than five (5) feet in width and five (5) inches in thickness except within driveway approaches where the minimum thickness shall be seven (7) inches.
- (6) Finishing. Before the last finish has set, the sidewalk shall be steel troweled and brushed in transverse direction. Before the final finishing, the surface shall be checked with a ten (10) foot straight edge and any areas departing more than one-eighth (1/8) inch from the testing edge shall be corrected by adding or removing concrete while the concrete in the walk is still plastic.
- (7) Jointing. Transverse, full depth, one-half (1/2) inch thick expansion joints of pre-molded expansion material shall be located every forty feet and where a private property line is perpendicular to the right-of-way, and where the walk intersects another walk, curb line, building or driveway approach, and at buildings, walls, poles and stop boxes. The expansion joint material shall be placed in a neat and workmanlike manner with its upper edge slightly below the finished sidewalk surface. Contraction joints for controlled cracking, at least three-eighths (3/8) inch in thickness and a depth of one-fifth of the total thickness of the concrete, shall be placed at intervals of approximately four (4) feet. All joints shall be at right angles to the direction and grade of the walk. Diagonal joints may be used only when approved by the Director of Public Works.

- (8) Curing. As soon as any of the concrete work hereinbefore mentioned has been finished and hardened sufficiently to prevent excessive marring of the surface, it shall be cured and protected against rapid drying. Failure to comply with this requirement shall be deemed sufficient cause for suspension or replacement of the work. Curing shall be accomplished by the "Impervious Coating," "Wet Fabric" or "Paper" methods. For impervious coating or membrane curing, only those materials meeting requirements of AASHTO M148 shall be used. Said specifications are hereby adopted by reference as if fully set forth herein. Sidewalks shall be kept free from all traffic at normal temperatures for forty-eight (48) hours and in cold weather (below 50 degrees F.) for ninety-six (96) hours. No concrete shall be poured when the temperature may be expected to fall below 35 degrees F. in any seventy-two (72) hour period or upon frozen subgrade.
- (e) SIDEWALKS ACCOMPANYING NEW STREET CONSTRUCTION. New public sidewalks and multiuse paths for all newly constructed streets, and in all subdivisions and land divisions meeting the definitions of Section 10-3-1304, shall comply with the standards of Sections 10-3-0611.
- (f) UNSAFE OR DEFECTIVE SIDEWALKS. The Village shall repair, remove and replace, or order such repair, removal, or replacement of any existing public sidewalk or multiuse path which is unsafe, defective, or insufficient in the determination of the Director of Public Works. Such repair or replacement shall be in accordance with the standard specifications provided for in this Section, except where modified by the Director of Public Works

State Law Reference: Section 66.615, Wis. Stats.

History: Code of Ordinances, 1986. Sec. 4-2-2 repealed and recreated. Ordinance No. 6, Series of 2015.

SEC. 4-2-3 EXCAVATIONS OF STREETS, ALLEYS, PUBLIC WAYS AND GROUNDS.

- (a) PERMIT REQUIRED. No person, partnership or corporation, or their agents or employees or contractors, shall make or cause to be made any opening or excavation in any public street, public alley, public way, public ground, public sidewalk or Village owned easement within the Village of Prairie du Sac without a permit therefor from the Superintendent of Public Works.
- (b) FEES. The fee as stated in the Schedule of Fees for a street opening permit for excavation into pavement or for any excavation other than pavement on any street or right-of-way. The fee shall be paid to the Village Administrator, who shall issue a receipt therefor.
- (c) INSURANCE REQUIRED.
- (d) BOND.
- (1) Before a permit for excavating or opening any street or public way may be issued, the applicant must sign a statement in that the applicant will indemnify and save harmless the Village of Prairie du Sac and its officers from all liability for accidents and damage caused by any of the work covered by his permit, and that the Village Administrator will fill up and place in good and safe condition all excavations and openings made in the street, and will replace and restore the pavement over any opening the Village Administrator may make as near as can be to the state and condition in which the Village Administrator found it, and keep and maintain the same in such condition, normal wear and tear excepted, to the satisfaction of the Village Board for a period of two (2) years, and that the Village Administrator will pay all fines imposed upon him for any violation of any rule, regulation or ordinance governing street openings or drain laying adopted by the Village Board and will repair any damage done to existing improvements during the progress of the excavation in accordance with the ordinances, rules and regulations of the Village. Such statement shall also guarantee that if the Village shall elect to make

the street repair, the person opening the street will pay all costs of making such repair and of maintaining the same for one year.

- (2) The person who does such restoration shall be responsible therefor for two (2) years from the date of the completion of the work and shall file a written guarantee or surety bond to that effect with the Village in the amount of Ten Thousand (\$10,000.00) Dollars.
- (3) Whenever the Village Board shall find that any such work has become defective within two (2) years of the date of completion, it shall give written notice thereof to the contractor or to his surety stating the defect, the work to be done, the cost thereof and the period of time deemed by the Village Board to be reasonably necessary to complete said work. After receipt of such notice, the contractor or the surety must, within the time specified, repair the defect or indemnify the Village for the cost of doing the work as set forth in the notice.
- (4) An annual bond may be given under this Section covering all excavation work done by the principal for one (1) year beginning January 1, which shall be conditioned as specified above and in the amount determined by the Village Board as necessary to adequately protect the public and the Village.

SEC. 4-2-4 REGULATIONS GOVERNING EXCAVATIONS AND OPENINGS.

- (a) FROZEN GROUND. No openings in the streets, alleys, sidewalks, or public ways shall be permitted during any of the following:
  - (1) When conditions are unreasonable for such work, as determined by the Director of Public Works; or
  - (2) Between November 15 and March 1, except where it is determined by the Director of Public Works to be an emergency excavation.
- (b) REMOVAL OF PAVING. In any opening or excavation all paving or ballasting materials shall be removed with the least possible loss of or injury to surfacing materials and together with the excavated materials from the opening shall be placed so as to cause the least practicable inconvenience to the public and permit free flow of water along gutters.
- (c) PROTECTION OF PUBLIC.
  - (1) Every opening and excavation shall be enclosed with sufficient barriers. Sufficient warning lights shall be kept on from sunrise to sunset. Such lights shall be spaced so as to give adequate warning of the existence of the opening and of piled excavated materials. No open flame warning pots shall be used. Except by special permission from the Superintendent of Public Works, no trench shall be excavated more than two hundred fifty (250) feet in advance of pipe or conduit laying nor left unfilled more than five hundred (500) feet where pipe or conduit has been laid.
  - (2) All necessary precautions shall be taken to guard the public effectively from accidents or damage to persons or property through the period of the work. Each person making such opening shall be held liable for all damages, including costs incurred by the Village in defending any action brought against it for damages, as well as cost of any appeal, that may result from the neglect by such person or his employees of any necessary precaution against injury or damage to persons, vehicles or property of any kind.
- (d) REPLACING STREET SURFACE. In opening any public street, public alley, public sidewalk, public way, public easement, or public ground, the paving materials sand, gravel and earth or other material moved or penetrated and all surface monuments or hubs must be removed and replaced as nearly as possible in their original condition or position and the same relation to the remainder as before. Any excavated material which in the opinion of the Superintendent of Public Works is not suitable for refilling shall be replaced with approved backfill material. All rubbish shall be immediately removed. In refilling the opening, the earth must be puddled or laid in layers not more than six (6) inches in depth and each layer rammed, tamped or flushed to prevent after-settling. When the sides of the trench will not

stand perpendicular, sheathing and braces must be used to prevent caving. No timber, bracing, lagging, sheathing or other lumber shall be left in any trench. The Village may elect to have the opening for any street or sidewalk repaired by the Village, in which case the cost of making such repair and of maintaining it for one year shall be charged to the person making the street opening.

- (e) NOTICE. It shall be the duty of the permittee to notify the Superintendent of Public Works or Village Administrator and all public and private individuals, firms and corporations affected by the work to be done at least twenty-four (24) hours before such work is to commence. The Superintendent of Public Works shall also be notified at least four (4) hours prior to backfilling and or restoring the surface.
- (f) VALIDITY OF PERMIT. Unless the work shall be commenced within thirty (30) days of the issuance of the permit, the permit shall be void, and a new permit must be obtained and an additional fee charged. The Superintendent of Public Works may extend the time limitation for good cause.
- (g) BACKFILLING. It shall be the duty of the permittee to backfill the opening immediately upon completion of the work and to place at least five (5) inches of traffic bind or similar material in the opening unless otherwise advised by the Superintendent of Public Works. It shall be the duty of the permittee to maintain the opening in good condition for a period of six months after the completion of the work or until the surface has been restored. The Superintendent of Public Works shall decide when within said six (6) months period the opening is ready for paving if a paving surface is required. If the surface is not restored within a period of ten (10) days or such longer period as determined by the Superintendent of Public Works, the Village may restore the surface and bill the permittee therefor.
- (h) EMERGENCY EXCAVATION. In the event of an emergency any person, firm or corporation, owning or controlling any sewer, gas main, water main, conduit or other utility in or under any public street, alley easement, way or ground and his agents and employees may take immediate proper emergency measures to remedy dangerous conditions for the protection of property, life, health, or safety without obtaining an excavation permit, provided that such person firm or corporation shall apply for an excavation permit not later than the next business day.
- (i) EXCAVATION IN NEW STREETS LIMITED. Whenever the Village Board determines to provide for the permanent improvement or repaving of any street, such determination shall be made not less than thirty (30) days before the work of improvement or repaving shall begin. Immediately after such determination by the Village Board, the Superintendent of Public Works shall notify in writing each person, utility, Village department or other agency owning or controlling any sewer, water main, conduit or other utility in or under said street or any real property abutting said street, that all such excavation work in such street must be completed within thirty (30) days. After such permanent improvement or repaving, no permit shall be issued to open or excavate said street for a period of five (5) years after the date of improvement or repaving unless in the opinion of the Village Board an emergency exists which makes it absolutely essential that the permit be issued.
- (j) APPLICATION FOR PERMIT. The application for a permit shall be in writing and signed by the applicant or his agent. The applicant shall submit to the Superintendent of Public Works, at the time the permit is applied for, sufficient information relating to the work to be done including the general location and nature of the work and the method applicant proposes to use in doing the work. The Superintendent of Public Works shall determine if sufficient information is submitted.
- (k) PROHIBITED SEDIMENT DEPOSITS. Any person, firm or corporation who causes or permits erosion, sediment deposits, tracking or dropping of dirt or mud on adjacent land, public streets or bodies of water or who damages or displaces any curb or sidewalk because of excavation, street opening or land disturbing activity shall be deemed in violation of this Section, be subject to the general penalties provided in Sec. 1-1-6 and shall be responsible for the cost of any necessary clean-up or repair work

- (1) EXCEPTION. The provisions of this Section shall not apply to excavation work done under the direction of the Superintendent of Public Works by Village employees or contractors performing work under contract with the Village except that the safety precautions under Subsection (c) hereof shall be complied with.

History: Code of Ordinances, 1986. Sec. 4-2-4 amended. Ordinance No. 6, Series of 2023.

SEC. 4-2-5 OBSTRUCTIONS AND ENCROACHMENTS.

- (a) OBSTRUCTIONS AND ENCROACHMENTS PROHIBITED. No person shall encroach upon or in any way obstruct or encumber any street, alley, sidewalk, public grounds, or land dedicated to public use, or any part thereof, or permit such encroachment or encumbrance to be placed or remain on any public way adjoining the premises of which the Village is the owner or occupant, except as provided in subsection (b).
- (b) EXCEPTIONS. The prohibition of subsection (a) shall not apply to the following:
  - (1) Signs or clocks attached to buildings which project no more than six (6) feet from the face of such building and which do not extend below any point ten (10) feet above the sidewalk, street, or alley.
  - (2) Awnings now built and extending over any sidewalk at a height of less than seven feet six inches (7' 6") above the sidewalk, street or alley.
  - (3) Public utility encroachments duly authorized by State Law or by the Village Board.
  - (4) Goods, wares, merchandise or fixtures being loaded or unloaded which do not extend more than three (3) feet on a sidewalk, provided such goods, wares, etc., do not remain thereon for more than three (3) hours.
  - (5) Temporary encroachments or obstructions authorized by permit under Section 4-2-6 of this Section pursuant to Sec. 66.045, Wis. Stats.
  - (6) Building materials for the period authorized by the Village Board which shall not obstruct more than one-half of the sidewalk or more than one-third of the traveled portion of the street, and which do not interfere with flow in the gutters.
  - (7) Excavations and openings permitted under Sections 4-2-3 and 4-2-4 of this Code.

SEC. 4-2-6 STREET PRIVILEGE PERMIT.

- (a) WHEN REQUIRED. Permits for the use of the streets, alleys, sidewalks or other public ways or places of the Village may be granted to applicants by the Superintendent of Public Works for the purpose of moving any building or structure or of encumbering the street, alley, sidewalk or way with materials necessary in and about the construction or demolition of any building or structure, provided such applicant has complied with the other requirements of this subsection and has obtained a building permit if required by this Code of Ordinances.
- (b) BOND. No street privilege permit shall be issued until the applicant shall execute and file with the Village Administrator a bond in an amount determined by the Superintendent of Public Works, not exceeding Ten Thousand (\$10,000.00) Dollars, conditioned that the applicant will indemnify and save harmless the Village from all liability for accidents or damage caused by reason of operations under said permit and will remove such encumbrance upon termination of the operations and will leave the vacated premises in a clean and sanitary condition and repair any and all damage to the streets, alleys, sidewalks or public property of the Village resulting from such building or moving operations.
- (c) FEE. The fee for a street privilege permit shall be as stated in the Schedule of Fees.
- (d) CONDITIONS OF OCCUPANCY. The permission to occupy or obstruct the streets, alleys, sidewalks or public grounds is intended only for use in connection with the actual erection, alteration, repair, removal or moving of buildings or structures and shall be given upon the

following terms and conditions and subject to revocation without notice by the Superintendent of Public Works for violation thereof:

- (1) Such temporary obstruction shall cover not more than one-third (1/3) of any street or alley.
  - (2) Obstructions shall be sufficiently lighted at night so as to be in full view of the public from all directions.
  - (3) Sidewalk traffic shall not be interrupted, but temporary sidewalks of not less than four (4) feet in width guarded by a closed fence at least four (4) feet high on both sides may be maintained during the period of occupancy.
  - (4) The process of moving any building or structure shall be as continuous as practicable until completed, and if ordered by the Village Board, shall continue during all hours of the day and night.
  - (5) No building or structure shall be allowed to remain overnight on any street crossing or intersection or so near thereto as to prevent easy access to any fire hydrant.
  - (6) Buildings shall be moved only in accordance with the route prescribed by the Superintendent of Public Works.
  - (7) Upon termination of the work necessitating such obstruction, all parts of the streets, alleys, sidewalks or public grounds occupied under the permit shall be vacated, cleaned of all rubbish and obstructions and placed in a safe condition for public travel at the expense of the permittee.
- (e) TERMINATION. All street privilege permits shall automatically terminate at the end of three months from the date of issuance unless an earlier termination date is specified thereon at the direction of the Superintendent of Public Works.
- (f) REMOVAL BY VILLAGE. In addition to any other penalty imposed, if the owner or occupant of the premises adjoining any unlawfully obstructed sidewalk shall refuse or neglect to remove such obstruction within twenty-four (24) hours after such notice from the Superintendent of Public Works to do so, it shall be the duty of the Superintendent of Public Works to remove such obstruction and make return of the costs and expenses thereof to the Village Administrator who shall enter such cost on the next annual tax roll as a special charge against the property abutting such obstructed sidewalk, and such sum shall be levied and collected as other special taxes against real estate.

State Law Reference: Section 66.045, Wis. Stats.

SEC 4-2-7      SNOW AND ICE REMOVAL.

- (a) OWNER'S RESPONSIBILITY. The owner, occupant or person in charge of each and every building or structure or unoccupied lot in the Village of Prairie du Sac fronting or abutting any street shall clean or cause to be cleaned the sidewalk in front of or adjoining each such home, building or unoccupied lot, as the case may be of snow or ice to the width of such sidewalk within twelve (12) hours after the snow has ceased to fall and shall cause the same to be kept clear from ice and snow, provided that when the ice has formed on any sidewalk so that it cannot be immediately removed, the persons herein referred to shall keep the same sprinkled with salt, sawdust or sand.
- (b) VILLAGE'S OPTION TO CLEAR SIDEWALKS. In any case where the owner, occupant or person in charge of any building or structure or unoccupied lot shall fail to clear their respective sidewalks of snow and ice as set forth above, then and in that event, the Village may elect to clear said sidewalks as follows:
- (1) The Village shall clear or cause to be cleared all snow and ice from the subject's sidewalk, and shall charge the expenses of so doing at a rate as established by resolution by the Village Board. The charges shall be set forth in a statement to the Administrator who, in turn, shall mail the same to the owner, occupant or person in charge of the subject premises. If said statement is not paid in full within thirty (30) days thereafter, the statement shall be reported to the Administrator, who shall enter

the charges in the tax roll as a special tax against said lot or parcel of land, and the same shall be collected in all respects like other taxes upon real estate, or as provided under Section 66.615(3)(f), Wisconsin Statutes.

- (c) DEPOSIT OF SNOW ON STREETS OR SIDEWALKS. No person shall deposit or cause to be deposited any snow or ice taken and removed from his premises or elsewhere upon any sidewalk, alley, parkway, public place or street in the Village, provided, however, that the removal of snow from a sidewalk in front of or abutting his premises, as is required by Subsection (a), may be deposited on the alley or street. Snow shall not be piled at or near intersections so as to obstruct the view of pedestrians or operators of motor vehicles.
- (d) PENALTY. As an alternative to the remedy provided in subsection (b) above, or in addition thereto the Village may impose a penalty for violation of any provision of this Section, providing that the person who violates any of the provisions of this Section shall forfeit and pay to the Village a forfeiture of not less than Twenty-five (\$25.00) Dollars nor more than Five Hundred (\$500.00) Dollars, together with the costs of prosecution for each offense. A separate offense shall be deemed committed during each day (24 hours) or part thereof during which a violation occurs or continues.

State Law Reference: Sections 66.60(16) and 66.615(3)(f) and (5), Wis. Stats.  
History: Code of Ordinances, 1986. Sec. 4-2-7 (b)(1) repealed and recreated. Ordinance No. 2, Series of 1997.

SEC. 4-2-8      TERRACE AREAS.

- (a) DEFINITION. The definition of "terrace" shall be as defined in Section 4-4-2(f).
- (b) NOXIOUS WEEDS; PAVING. All that part of the terrace not covered by a sidewalk shall be kept free and clear of all noxious weeds and shall not be paved, surfaced or covered with any material which shall prevent the growth of plants, and shall be maintained as a lawn, except in areas specifically approved by the Village Board or its designee.
- (c) RESPONSIBILITY TO MAINTAIN. Every owner of land in the Village whose land abuts a terrace is required to maintain, or have maintained by his tenant, the terrace directly abutting such land as provided in this Section and elsewhere in this Code. Every owner shall keep mailboxes located on a terrace free and clear of snow.
- (d) STREET RIGHTS OF WAY. Any tree, shrub, hedge, fence or other obstruction planted or constructed within the right-of-way of any Village street shall be done at the property owner's risk and shall be in accordance with the provisions of Title 4, Chapter 4 of this Code of Ordinances. In the event any street is widened or sidewalk constructed, any such planting or obstruction shall be removed at the property owner's expense.

Cross Reference: Title 4, Chapter 4.

SEC. 4-2-9      VAULTS.

All vaults under sidewalks in the Village shall be constructed of brick, concrete block, or poured concrete. The surface opening into the street shall be within three (3) feet of the outer edge of the sidewalk, or the curb. The slab over such vault shall be able to withstand a load of two hundred fifty (250) pounds per square foot of slab area. The owner of any lot or parcel of land adjoining such vault shall maintain such vault and slab over in a safe condition and at his own expense.

SEC. 4-2-10      DOWNSPOUTS AND EAVES OF BUILDINGS NOT TO DRAIN ON SIDEWALKS.

No downspouts from any building shall terminate on or upon, or in such position that the contents of such spout be cast upon or flow back or over, any public sidewalk in the Village. When the eaves of any building extend over or are so constructed that water may fall therefrom or run back upon any public sidewalk, such eaves shall be so protected by proper spouts or otherwise that no water shall

fall or drain therefrom or run back upon or over any public sidewalk. The owner or owners of any building and the officers of any association or corporation owning any building on which any spouts or the eaves thereof shall be maintained contrary to this Section shall be subject to a penalty as provided in Section 1-1-6 of this Code of Ordinances.

SEC. 4-2-11 SALE OR DISPLAY OF MERCHANDISE PROHIBITED.

No person shall display, sell, or offer to sell, on any street, sidewalk, alley, municipal parking lot or other public place within the Village, anything of value or service of any kind, except in connection with a Village-wide enterprise or promotion of community trade.

SEC. 4-2-12 REQUESTS FOR IMPROVEMENTS.

Requests or petitions by Village property owners for new streets, curb and gutter, and sidewalks shall be presented to the Village Board on or before November 1 to be considered for installation in the following year.
