

Village of Prairie du Sac

2024 LOCAL STREET IMPROVEMENTS

PUBLIC INVOLVEMENT MEETING #1 - DECEMBER 18, 2023

Project Overview

- 5th Street and VFW Drive

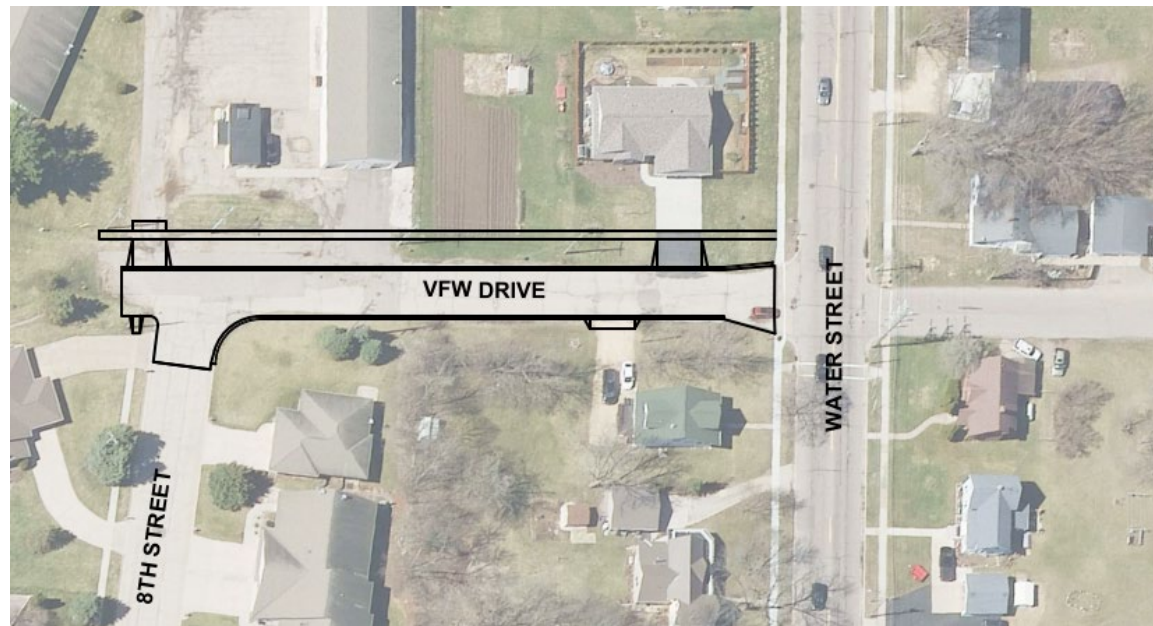

5th Street – Grand Ave to Prairie Street

- Six blocks of Roadway Reconstruction
- Reconstruction of the curb and gutter, road base, and asphalt pavement
- Replacement/Upsizing of water main, water services, and substandard sanitary sewer
- New storm sewer extensions
- Spot replacement of sidewalk on east and west sides of 5th Street. New sidewalk on east side of 5th Street between Patrick H Drone Drive and Galena Street
- Removal of existing trees that are in poor health or conflict with the project

VFW Drive – 8th Street to Water Street

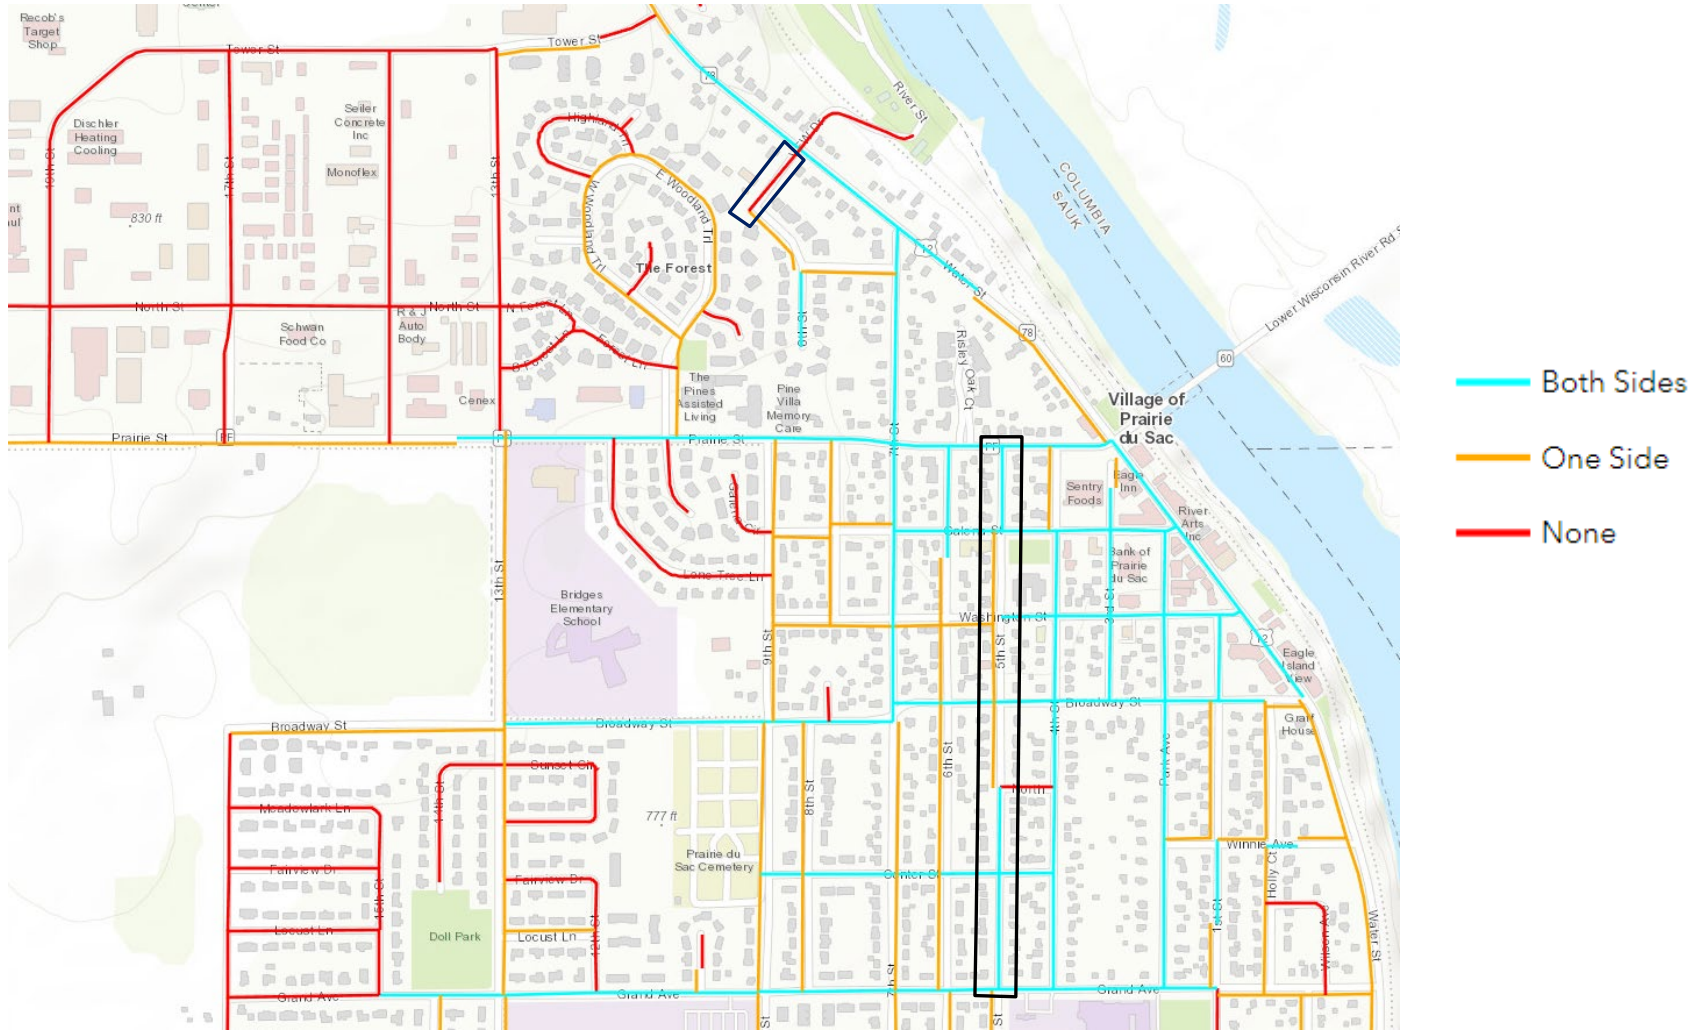

- One block of Roadway Reconstruction
- Reconstruction includes new curb and gutter, road base, and asphalt pavement
- Replacement/Upsizing of water main, water services
- Spot replacement of sanitary sewer
- New storm drains as necessary
- New sidewalk on the north side of VFW Drive
- Removal of existing trees that are in poor health or conflict with the project

Why Sidewalks?

- Village policy to construct sidewalks along any existing public street when it is reconstructed
- Pedestrian mobility and safety
- Placement of sidewalk is based on street's functional classification
- For minor residential streets, sidewalks shall be installed on one side of street (north or west sides unless conflicts exist such as utilities, grades, or right-of-way restrictions)
- For collector streets, sidewalks shall be installed on both sides of the street

Why Sidewalks?

Special Assessments

- No assessments for sidewalk or curb replacement
- Village policy is to assess property owners for driveways and carriage walks
 - Property owners have input into whether or not their carriage walks are replaced
- Assessment letters with estimates will be sent to property owners when design is complete
- Payment Options

Impacts During Construction

- Access to Driveways
 - Residents will have access to driveways overnight except after concrete pours (curb, sidewalk, and driveway)
 - During the day driveways will often be blocked by machines and excavations. Try to park on a side street during working hours
- Garbage
 - Garbage and recycling collection will continue as normal
- Mail Delivery
 - Potential for mailbox banks during construction. Will discuss with USPS.

Impacts During Construction

- Water Outages
 - Water outages will occur during water main connections and new water service connections. (Likely 2-3 half day outages)
 - Residents will be notified in advance when a scheduled water outage is to take place
- Items within Village Right-of-Way
 - Items within the village right-of-way (landscaping, irrigation lines, trees, fences, lawn ornaments, etc.) are subject to removal/or damage
 - Please move the items prior to construction

Project Schedule

- Design
 - November-February
- Project Bidding/Award
 - February/March 2024
- Public Involvement Meeting #2
 - March 2024
- Construction (tentative)
 - April-August 2024

Questions and Comments

- Questions
 - Do you want to keep your carriage walk?
 - Do you plan to replace your sanitary lateral during the project?
 - Do you want to replace the private portion of your water service during the project?
 - Do you want your entire driveway replaced up to your garage? If so, how is this accomplished?

- Additional comments, thoughts, or ideas?
